Why this war with the Slavs Slavs? We, the relatives do not need it. Who needs this war? War is a dirty way to "earn" money, and that to be honest they can not earn? Let her stop taking! Enough to kill their relatives. Enough to do a decent, which now need to do, than by killing each other in the interests of the rich distraught by the fact that they no longer know what they want.

Do not know what they want, washes the blood to drink, and suddenly feel better? Do not feel better, it does not help. "Skilki Pokhil yet? "Language is not clear? I subconsciously it clear, moreover, it is my home, it is clear to me, even without translation. Enough already be stupid, it's time to become pure and good. Enough, let's stop. What I nafig "Moskal"? Moskal, is a surname, of the Ukrainian chief. And I'm not a "Muscovite," I am Russian, and all my relatives from Ukraine. Why should I be ashamed? I do that in the Soviet Army did not serve, or a sin, some fulfilled? This has not happened and will not be, so why should my heart bleeds when I read every day on the Internet as young children are dying on both sides?

You can not kill people! You can not! Now my wife and I talked to her. She said a simple idea. "And he imagine you would have endured, and begot Man and his then someone killed," and you will be pleased by this? A rhetorical question (which does not require a response). Enough. Enough. Once again. Enough. Enough kill each other. Our girls, why should go mourning for the dead compatriots guys? Guys who defended our country, is now a battle between staged. In my opinion, this is complete madness. This madness must be stopped. I appeal to all Mothers, fathers, sisters and brothers mine. Let's stop this madness together. I am tired of this.
